BRIC Consulting Engineers

Engineering Success Through Smart Design & Planning

Who We Are

BRIC Consulting Engineers is a Perth-based structural and civil engineering consultancy delivering practical solutions across residential, commercial, and construction projects.

We support builders, developers, and contractors with efficient, buildable designs and fast turnaround services, helping keep projects moving from planning through to handover.

Our team has delivered thousands of projects across WA and is known for being responsive, reliable, and easy to work with.

What We Do

Engineering Design

- Residential (single, double, multi-storey)
- Commercial & industrial structures
- Footings, slabs, and structural systems
- Alterations, extensions, and modifications

Structural Inspections (Core Focus)

- Pre-purchase & pre-handover inspections
- Reinforcement inspections
- Roof frame & wall inspections (AS1684 compliant)
- Retaining wall inspections

Reports & Certification

- Structural reports & assessments
- Retrospective approvals
- Certification for compliance and council approvals

Project & Building Consulting

- Design coordination
- Construction support
- Approval assistance

Why Work With BRIC

- Fast turnaround – quotes and inspections when you need them
- Responsive team – direct communication, no runaround
- Practical design approach – solutions that actually work on-site
- Cost-effective outcomes – engineered with construction in mind
- Trusted by builders – repeat clients across WA

Who We Work With

- Builders & Civil Contractors
- Developers
- Owner-builders
- Architects & Designers
- Local Government

Our Approach

We understand construction pressures — delays cost money.

That's why we focus on:

- Keeping designs simple and buildable
- Delivering quickly without compromising quality
- Supporting projects from concept through to completion

We don't just design — we help deliver projects.

Service Area

Perth Metro (Yanchep to Mandurah)

Let's Work Together
